REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the present invention relates to a word line driver for a memory device. The independent claim 1 recites a row decoder for generating a word line select signal, according to an address signal, *to simultaneously select two word lines neighboring each other of the plurality of the word lines*; a column decoder for selecting *one* of the plurality of the bit lines; and a plurality of sense amplifiers for sensing data stored at the memory cells selected by the row decoder and the column decoder. The PRIOR ART fails to disclose a memory device comprising a row decoder ***to simultaneously select two word lines neighboring each other*** and a column decoder for ***selecting one of the plurality of the bit lines*** as described in the independent claim 1, therefore, claims 1-11 are in condition for allowance

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
